

Empathy Map

Date	25 June 2026
Team ID	XXXXXXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the credit card approval process. This helps the team develop a customer-centric solution that provides fast, accurate, and transparent credit card eligibility predictions while improving the overall application experience.
